

COMMUNITY ACTION IS NEEDED

Come to a STUDY GROUP AND WORKSHOP ON THE BIO-WARFARE AGENT RESEARCH FACILITY PROPOSED AT SITE 300 IN TRACY

What:

Learn about a secret proposal by Livermore Lab and the University of California to obtain funds from the Department of Homeland Security for a maximum containment bio-facility that could experiment with mad cow disease, avian flu, and even Ebola virus and other diseases for which there is no known treatment or cure.

When:

Tuesday, September 12, 2006 from 7 PM - 9 PM

Where:

Community space at Sarvey Shoe Store
501 W. Grantline Road, Tracy

Why:

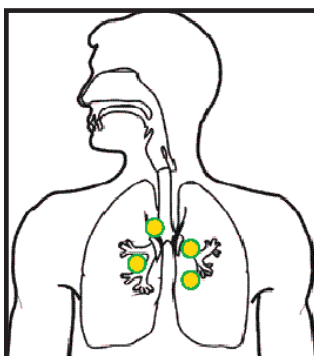

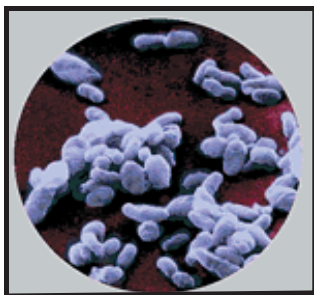

Community opposition can stop this project. **Get Involved!**

Speakers:

Dr. Judith Flanagan is a Molecular Biologist and an Assistant Professor at UC San Francisco Medical School. Dr. Flanagan serves as an expert consultant to Tri-Valley CAREs to advise on health and safety issues concerning biowarfare agent research.

Edward Hammond is Director of the US office of the Sunshine Project. He has worked on biotechnology-related policy since 1993. Hammond conducted a national comprehensive study of committees that oversee biolabs like the ones planned in Livermore and Tracy and he found serious problems. He presented his study at the Biological Weapons Convention in Geneva.

Loulana Miles, Staff Attorney at Tri-Valley CAREs, serves as the group's project manager for the Livermore Lab Site-Wide Environmental Impact Statement and heads the effort to prevent the collocation of advanced biowarfare agent research and nuclear weapons at Livermore Lab.

CONTACT:

Tri-Valley CAREs • 2582 Old First Street • Livermore, CA 94551 • Tel: 925-443-7148
