Instead of revitalizing the nuclear weapons complex and building new bomb plants, the U.S. should fully comply with the Non-Proliferation Treaty and honor our disarmament obligations. I oppose the Dept. of Energy’s “Complex Transformation” plan, known as the “Bombplex”.

- Reject “Complex Transformation”
- Stop nuclear pollution and weapons
- Enhance our collective global security
- Support nonproliferation & disarmament

We need a new nuclear policy, not new nuclear bombs.

Sincerely,
