62 years after the U.S. dropped
atomic bombs on Hiroshima and
Nagasaki, we find ourselves still
"in the shadow of the bomb."

Join us on August 6th, the anniversary
of the atomic bombing of Hiroshima.

We will commemorate the victims of
nuclear weapons and war at the gates of the
lab that is designing the next U.S. H-bomb

Say no to the continuing devastation that
accompanies the nuclear cycle - in Livermore and
around the world.
