

YOUR INPUT MATTERS!

Community Meeting: Cleaning Up Livermore Lab's Off-site Groundwater Contamination

Thursday, November 3, 7- 8:30 PM
749 Hazel St., Livermore
RSVP: (925) 443-7148

This community meeting will take place at Janis Kate's home, near the off-site contaminated groundwater plume emanating from Livermore Lab.

Come and learn about the contamination and the Superfund cleanup plan. We will discuss how the pipeline extension will affect the surrounding community. We will prepare a comment letter detailing the importance of protecting workers and the environment during pipeline construction in plutonium contaminated soil. Your participation will help protect the community. **JOIN US!**
