### About Tri-Valley CAREs

Since 1983, Tri-Valley CAREs has strengthened global security by preventing the further development of nuclear weapons and working tirelessly for their elimination. The group was founded by concerned citizens living around the Lawrence Livermore National Laboratory, one of two locations where all U.S. nuclear weapons are designed. Tri-Valley CAREs monitors nuclear weapons and environmental cleanup throughout the U.S. nuclear weapons complex, with a special focus on Livermore Lab and the surrounding Bay Area and Central Valley communities. Our vision for a "green lab" in Livermore provides tangible steps to move the world from reliance on nuclear weapons toward a more sustainable and just future.
