“Nuclear Weapons & Climate Change: Shine a Light, Stop the Hate, Lower the Heat”

Commemorate the anniversaries of the U.S. atomic bombings of Hiroshima and Nagasaki by shining a light of truth for the abolition of nuclear weapons.

Expect great speakers and musicians. We are organizing a “hybrid” event with virtual presentations from great thinkers around the world and a limited live presence at the Livermore Nuclear Weapons Lab in the SF Bay Area.

Event planning is ongoing. Your safety is our priority. Saving the planet is our imperative. Connecting the dots between issues is our power.

Links and more info will be available soon!

We ask you to stay apprised at www.trivalleycares.org, or marylia@earthlink.net, or “August Action at Livermore Lab 2021” on Facebook - and by contacting the Northern California planning groups below.

Asian Americans for Peace & Justice, Ecumenical Peace Institute, Livermore Conversion Project, No Nukes Action, San Francisco Bay Physicians for Social Responsibility, Tri-Valley CAREs, Western States Legal Foundation, and Women’s International League for Peace & Freedom. New groups are welcome!
