SAFEGUARD TRACY!

**A Community Meeting on
the Environmental Impacts
of Livermore Lab's
"Site 300"
High Explosives Testing
Range in Tracy**

- WHAT:** Community meeting of the Tracy Advisory Committee on the Cleanup of Toxic & Radioactive Contaminants at the Livermore Lab's "Site 300" nuclear weapons facility on Corral Hollow Road. *Interested Tracy area residents are welcome. Light refreshments.*
- DATE:** **Monday, June 19, 2017**
- TIME:** **6:30 PM – 7:30 PM**
- PLACE:** Safeway Store Community Meeting Room, 1801 W. 11th St., Tracy. *Enter Safeway and turn left to go into the meeting room.*
- MORE:** The Advisory Committee is open to all Tracy area residents. Tracy-based board members and community members of the non-profit Tri-Valley CAREs (Communities Against a Radioactive Environment) founded the committee in 2015. The group meets regularly to inform and involve Tracy residents in decisions regarding the Superfund cleanup of soil and water at "Site 300" and to investigate waste management questions and potential airborne releases stemming from high-explosives tests at the site.
