SAFEGUARD TRACY!

**An Informational Meeting
on the Environmental
Impacts of Livermore Lab's
"Site 300"
High Explosives Testing
Range in Tracy**

- WHAT:** Quarterly meeting of the Tracy Advisory Committee on the Cleanup of Toxic & Radioactive Contaminants at the Livermore Lab's "Site 300" nuclear weapons experimental facility on Corral Hollow Road in Tracy. *The public is welcome. Free event.*
- DATE:** Thursday, November 10, 2016
- TIME:** 7 PM – 8 PM
- PLACE:** Safeway Store Community Meeting Room, 1801 W. 11th St., Tracy. *Enter Safeway and turn left to go to the meeting room.*
- MORE:** The Tracy Advisory Committee is open to all Tracy area residents. Tracy-based board members and community members of the non-profit organization Tri-Valley CAREs (Communities Against a Radioactive Environment) founded the committee in 2015. The group meets quarterly to inform and involve Tracy residents in decisions regarding the Superfund cleanup of soil and water at "Site 300" and to investigate waste management questions and potential airborne releases stemming from high-explosives tests at the site.
