**YOUR HEALTH & THE ENVIRONMENT:  
COME & LEARN ABOUT TOXIC & RADIOACTIVE WASTES AT LIVERMORE LAB**

---

**WHAT:** Find out about the contaminants that have been found in the air, soil and groundwater aquifer, how they impact surrounding communities, and what cleanup is being proposed for the Livermore Lab's Main Site on the eastern edge of Livermore.

You are invited to join us for this very special "fence line" tour. Your guide will be Tri-Valley CAREs' executive director, Marylia Kelley, who will share her 33-years experience monitoring pollution at the Livermore Lab. There will be ample time for questions.

The Lab's Main Site is on the EPA Superfund list of most polluted sites in the nation. Learn about the Superfund Law and how its public involvement provisions can be used to improve cleanup and safeguard our environment.

**WHEN:** Thurs., **December 1, 2016** from 10 AM to 11:15 AM

**WHERE:** Meet at the Livermore Lab "West Badge Office" at the corner of Vasco Road & Westgate Drive.

*Or, arrange in advance to meet at the Tri-Valley CAREs office before 9:30 AM.*

**RSVP is Required:** Call us at 925-443-7148 or email [marylia@trivalleycares.org](mailto:marylia@trivalleycares.org).
